RE: Trellis Steel Construction Ltd. Recommendation

To Whom It May Concern:

Over the past 6 years, Scott Builders has engaged Trellis Steel Construction Ltd. on multiple projects for erecting pre-engineered metal buildings. Their performance on every project has been excellent, below are some examples:

- 1) Safety – follow safe work procedures, has never been an issue on any of our sites
- 2) Schedule – they have separate crews for steel, cladding, and roofing, this has resulted in expedited erection times
- 3) Communication – we have found Trellis very easy to deal with, any issues were resolved in a quick and fair manner

I would not hesitate recommending Trellis for any future projects. If you require any more information, please feel free to contact me directly at (780) 450-7693.
